

Resource 1

Look at the resource below, where children share some of the things they have learned at school. What did they learn?

One of the children in my class was being really unkind to me and wouldn't let me join in. I felt so angry so I pushed her over. I got in trouble. My teacher asked me why I did it. I explained and she told me that pushing someone was wrong but feeling left out wasn't very nice. She told me that next time, I need to ask for help. She also spoke to the other child about her unkind words and how I had been made to feel left out. We both learned what to do when we are feeling upset or frustrated when playing with our friends.

I learned how to hold my knife and fork properly at lunchtime.

We looked at a map of the world and tried to find the UK. I knew where that was already, but I didn't know all of the names of the continents.

I wanted to paint my dinosaur purple. I learned when you mix red and blue paint, it makes purple! I chose a small paint brush and tried hard to keep my paint in the lines.

Which subject do you think each of these things was learned in?

I spent a long time practising my handwriting. I was desperate to be able to join it up! It took lots of hard work, but I can do it now!
