

WHAT'S ON

Y4

SUMMER
2026

Welcome back to school- here is an overview for this term

Our Class :

Teacher: Mrs Kantharia

Teaching Assistant: Mrs Campbell

PPA Cover: Mrs Wyne

Science

Our topic this term is 'States of Matter'. We will be learning about solids, liquids and gases, exploring how materials can change state through heating and cooling, and investigating the water cycle and how it works.

The children will also be learning about 'Animals Including Humans'. We will be learning about the different parts of the digestive system, understanding the importance of healthy eating, and exploring how teeth help humans and animals to eat and survive.

PSHE

In PSHE this term, the children will be learning about physical health and mental wellbeing, including how to maintain a balanced lifestyle and the importance of oral hygiene and dental care. They will also explore growing and changing, discuss keeping safe around medicines and household products.

English

The children will be exploring the narrative Aladdin and the Enchanted Lamp, developing their understanding of story structure, characterisation, and descriptive language as they engage with this well-known tale. They will also study non-fiction writing in the form of diaries, focusing on How We Lived in Ancient Times. Through this unit, the children will learn how to write in the style of a diary entry, using appropriate language and perspective to imagine and describe daily life in historical periods.

Maths

In Maths this term, the children will be learning about understanding and manipulating multiplicative relationships and exploring fractions.

PE

Our PE days this term are Monday and Thursday. Children need to bring their PE kit into school with them. The children will be developing their skills in team work and orienteering.

RE

In R.E. this term, the children will be learning about Islam through the study of Ramadhan. They will explore Islamic beliefs and practices, including the importance of commitment, charity and helping others. The children will also reflect on their own commitments and consider how dedication and self-improvement can have a positive impact on their lives.

Design & Technology

The children will explore food; Healthy and varied diet, including cooking and nutrition requirements.

Art

The children will explore Sculpture, Structure, Inventiveness & Determination and look at what artists learn from nature?

History

This term, the children will be learning about the Vikings and their impact on Britain.

Music

In Music this term, the children will be learning about Samba and carnival sounds. They will explore the rhythms and instruments used in Samba music, develop their percussion skills and work together to create lively performances inspired by carnival celebrations.

Geography

In Geography this term, the children will be learning about volcanoes and earthquakes. They will explore how and why volcanoes erupt, discover what causes earthquakes and learn about the impact these natural disasters can have on people and the environment around the world.

French

Learning a second language early in life enhances overall cognitive skills and improves brain development. So, our unit of work this term will be "Les fetes"

Computing

In Computing this term, the children will be learning about creating media through photo editing and developing their programming skills using repetition in games.

M: PE & Outdoor learning - please bring appropriate footwear.

W:

T: PE

F: Spelling Test

Upcoming dates:

- 20.05.26 - Sports day
- 25.05.26 - 29.05.26 - Half term
- 22.06.26 - School photo day

Homework

Reading, Spellings and Times Tables are an integral part of children's learning and support development across the curriculum.

Children should read and practice their times tables for at least 10 minutes every night. Please log reading in the children's record books so that they can be rewarded with Class Dojo's!

We will send home spellings each Monday and complete a test on Friday.
