Mrs Peck's Message

Welcome back to school after the Easter break! I hope you all had a restful and enjoyable time with your families.

It has been wonderful to see the children return with such enthusiasm and positivity, truly hitting the ground running as we begin the new term. I would like to take a moment to thank you all for your continued support with attendance. It has been absolutely fantastic—in fact, on a couple of days this week, we only had a few children absent across the entire school. This is a remarkable achievement and is making a real difference to children's learning, as well as helping us move closer to meeting national attendance targets.

We are incredibly proud of how quickly pupils have settled back into routines. A special mention must go to Year 1, who thoroughly enjoyed their recent trip and represented the school brilliantly. They were excellent role models, demonstrating great behaviour and enthusiasm throughout. Thank you, as always, for your ongoing support—it truly makes a difference.

PTA PLEA!

We would love to invite more parents and carers to join our PTA. Thank you to those who supported our recent Easter Bingo—we really appreciate it.

We are keen to welcome more ideas and involvement from our school community. Your views on what you would like for the children are important, and every contribution, big or small, makes a difference.

If you would like to get involved, please get in touch—we would love to hear from you.

TEACHER SPOTLIGHT - MRS LENZ

Mrs Lenz is our Outdoor Learning Lead in school. She is responsible for developing and caring for our outdoor areas, including our fantastic Forest School. We have allocated time so that each class enjoys one hour of outdoor learning every week, as we believe this is vital for supporting children's mental health through time spent in nature. Mrs Lenz works incredibly hard to enhance our school grounds, planting flowers, trees, fruits, and vegetables with the help of her many volunteers. You may have noticed some of her pots with young plants on the windowsills around school. She also runs an Eco Club after school on Mondays for children who are interested in making a positive difference to the environment.

Did you know? Mrs Lenz is also highly trained in British Sign Language. She holds a Level 6 certificate and enjoys running a Sign Language Club in our HI SERF on Wednesdays after school.

Eid Party Day

We had a wonderful time celebrating Eid in school on 27th March. The children looked fantastic in their party clothes and enjoyed sharing a variety of delicious food with one another - thank you all so much for your generosity.

Throughout the day, pupils took part in activities including beautiful henna designs, and it was a joy to come together to celebrate and learn more about this special cultural occasion.

A special thank you to Muhammad, who kindly provided a hot breakfast for all the children and adults in Year 1 - this was greatly appreciated by everyone.

It was a truly lovely day, celebrating together as a school community.

Keeping Safe On A Night Out Vulnerability Awareness Information

Would you know how to help if your friend had too much alcohol?
 Would you feel confident bringing attention to a stranger who seemed in a precarious situation?
 Do you know what to do if something goes wrong on a night out?

Everyone goes out with the intention to have a good time and make memories with their friends. Unfortunately this isn't always the end result. Although you may think it won't happen to you, research suggests that drink spiking is on the rise.

We want to help you be alert to the dangers of drink spiking and what steps you can take to prevent it happening to you and your friends. We have developed a short awareness course for you to complete on your phone.

This course will take you through a variety of real life scenarios to put you in the shoes of someone who has been spiked, or has witnessed it, and help you understand what course of action you might want to take.

It isn't a test, and we don't expect you to know everything. The course is designed to help you become more aware to the dangers of drink spiking and support you to help those around you.

Spend 15 minutes doing this course, you never know it might make all the difference. To log in to the Keeping Safe On a Night Out course please scan the QR Code
